

D SERIES 3200-3600PSI ELECTRIC-START Gas Engine Pressure Washer

D type frame equip with 9-13HP gas engine and DIRECT DRIVE triplex pump

Commercial grade brass forged direct drive triplex pump, built with thermal protection and detergent injector. Performance proven gas engine, EU5 or EPA certified. Engine mount with anti-vebration rubber feet. Powder coating frame, all cover type, four wheel easy move. Folding handle, bolt on hook for gun and hose storage, onboard nozzle storage, 4x10" solid wheels.

Standard Accessories:

ID8mm x 10m steel braided hose, 3/8" QD
Professional trigger gun, 3/8" QD Plug
20" stainless steel lance, 1/4" QD Plug outlet
5tips QD nozzles

Optional:

Hose Reel
Self Priming

FEATURES

Heavy-Commercial Grade
It is ideally suited for high-frequency use in large-scale or heavy-commercial cleaning scenarios.

Electric Starter
It uses electrical energy to drive mechanical structures, helping engine to start.

Engine Emission Approved
The gasoline engine equipped on the pressure washer has obtained EURO 5 Emission Certification.

Crankshaft
It can achieve efficient power transmission, and stable output, with high strength and low vibration.

20A/H Battery
To provide the instantaneous high-power electrical energy required for the electric starter to operation.

10" Solid Wheels
Rubber powder solid wheels are features bearing-free, impact resistance, wear resistance and maintenance free.

Integrated Anti-vibration
The inclined shock absorber pad Install under the pump and engine can efficiently disperse impact and vibration energy.

SPECIFICATIONS

MODEL	DCC-22/15D	DCC-24/17D
Max Pressure	3200Psi / 220Bar	3600Psi / 248Bar
Rated Flow	4.0Gpm / 15Lpm	4.5Gpm / 17Lpm
Pump Model	DBC-15085A, Direct Drive	DBC-1510A, Direct Drive
Power And Type	9.0hp/270cc, Electric Start	13hp/390cc, Electric Start
Shipping Size	82x55x66cm	82x55x66cm
