

TG SERIES

3200-3600PSI Gas Engine High Pressure Washer

ST type frame equip with 9-13HP engine
and COMMERCIAL triplex pump

Commercial grade brass forged triplex pump, pressure adjustable, Performance proven gas engine, EU5 or EPA certified. Engine and pump mount with anti-vibration rubber feet. Powder coating four wheel frame, bolt on handle, built with hose on board fixture. Removable hose reel with short connection hose. 10" solid wheel with plastic hub without bearing.

Standard Accessories:

ID8mm x 10m steel braided hose, 3/8" QD
Professional trigger gun, 3/8" QD Plug
20" stainless steel lance, 1/4" QD Plug
5tips QD nozzles

Optional:

Self Priming
Electric Start
Battery

FEATURES

Medium-Commercial Grade
It is ideally suited for frequency use in medium-scale or commercial cleaning scenarios.

Pressure Adjustable
To prevent damage to delicate surfaces by matching the pressure level, enhance cleaning efficiency and suite multiple scenarios.

Engine Emission Approved
The gasoline engine equipped on the pressure washer has obtained EURO 5 Emission Certification.

Crankshaft
It can achieve efficient power transmission, and stable output, with high strength and low vibration.

Pump Head Thermal Protection
It protects the pump from over heating when in bypass, by release the hot water and cooling down the pump.

10" Solid Wheels
Rubber powder solid wheels are features bearing-free, impact resistance, wear resistance and maintenance free.

Integrated Anti-vibration
The inclined shock absorber pad Install under the pump and engine can efficiently disperse impact and vibration energy.

SPECIFICATIONS

MODEL	DCC-22/15TG	DCC-24/17TG
Max Pressure	3200Psi / 220Bar	3600Psi / 248Bar
Rated Flow	4.0Gpm / 15Lpm	4.5Gpm / 17Lpm
Pump Model	DBC-15085A, Brass	DBC-1510A, Brass
Power And Type	9hp/270cc, OHV	13hp/390cc, OHV
Shipping Size	77x50x62cm	77x50x62cm
Shipping Weight	60kgs	68kgs
